# LINK

## DINING TABLE

When designing Link Collection, Junpei & Iori Tamaki envisioned how multiple pieces placed together would create a link, and how that connection would evolve in various ways. To express Link Collection, Junpei & Iori Tamaki believed that a design with both simplicity and distinctive, memorable features was necessary. Bringing together the strength of wicker with the refined presence of leather.

It is a design that emphasizes the contrast between the parts wrapped with leather look wicker and those without, set against a simple frame structure. This contrast creates a beauty in the balance of roughness and refinement, allowing both impressive and distinctive design to coexist.
