VÉU COLLECTION

WARM RELAXATION EMERGES THROUGH
WOVEN TACTILITY AND SUBTLE LINES

Véu responds to the accelerated rhythm of contemporary life, where calm and serenity often feel increasingly distant. This reflection is translated into a furniture piece that brings softness and ease quietly back into view.

BRAZIL

VÉU-bisque

The chaise lounge is conceived with the intention of offering warm relaxation through a distinctly Brazilian perspective, expressed through a woven cord in a leather-look finish and a fine, delicate metal language drawn from Brazilian modernist furniture and architecture.

Véu-bisque & Véu-terra Chaise Lounge

Véu-nightfall Chaise Lounge

Together, these elements create an open, tactile and effortlessly composed presence.
